OMURUKA .W. EMMANUEL

Junior Web Developer

Port Harcourt, Rivers State, Nigeria | 09032283758 | 09012792333
omurukaemmanuel38@gmail.com

PROFILE

Motivated web developer developing practical skills in creating responsive, user-friendly websites. Practicing HTML, CSS, JavaScript, and Git/GitHub through hands-on projects. Preparing for the JAMB examination; university admission is pending.

TECHNICAL SKILLS

- HTML and page structure
- CSS and responsive layouts
- JavaScript fundamentals and basic interactivity
- Git and GitHub
- Visual Studio Code and browser developer tools
- Website navigation and multi-page layouts

PROJECTS

Personal Developer Portfolio

- Built a multi-page portfolio using HTML, CSS, and JavaScript to showcase skills, projects, and contact information.
- Implemented responsive navigation, a mobile menu, and a CV download feature.

Cobbler Portfolio Website

- Designed and developed a website showcasing a cobbler’s services and work.
- Created website sections and navigation with a user-friendly layout.

JavaScript Calculator

- Created a calculator to practice JavaScript and interactive button functionality.
- Includes arithmetic operations and Clear/Delete controls; list bracket support only if it works in the current version.

Nexora Landing Page

- Created a landing page for Nexora to practice clear page structure and visual layout.
- Used HTML and CSS for structure and styling, with JavaScript where needed for interactivity.

EDUCATION

Prospective University Student
Preparing for the Joint Admissions and Matriculation Board (JAMB) examination; university admission pending.

PERSONAL STRENGTHS

- Willingness to learn and improve
- Problem-solving and attention to detail
- Creative thinking and persistence

CAREER OBJECTIVE

To continue developing web development skills, build a strong portfolio of practical projects, and contribute to creating reliable, accessible websites.
